My Agent Website
Ready when you are

01

Your office.

Add a link once for everyone.
You decide what appears
company-wide.

02

Their way.

Agents add personal shortcuts and
drag cards into the order that works
for them.

03

Already familiar.

Company Google or Microsoft 365. No
new password to remember.

Getting in is this easy.

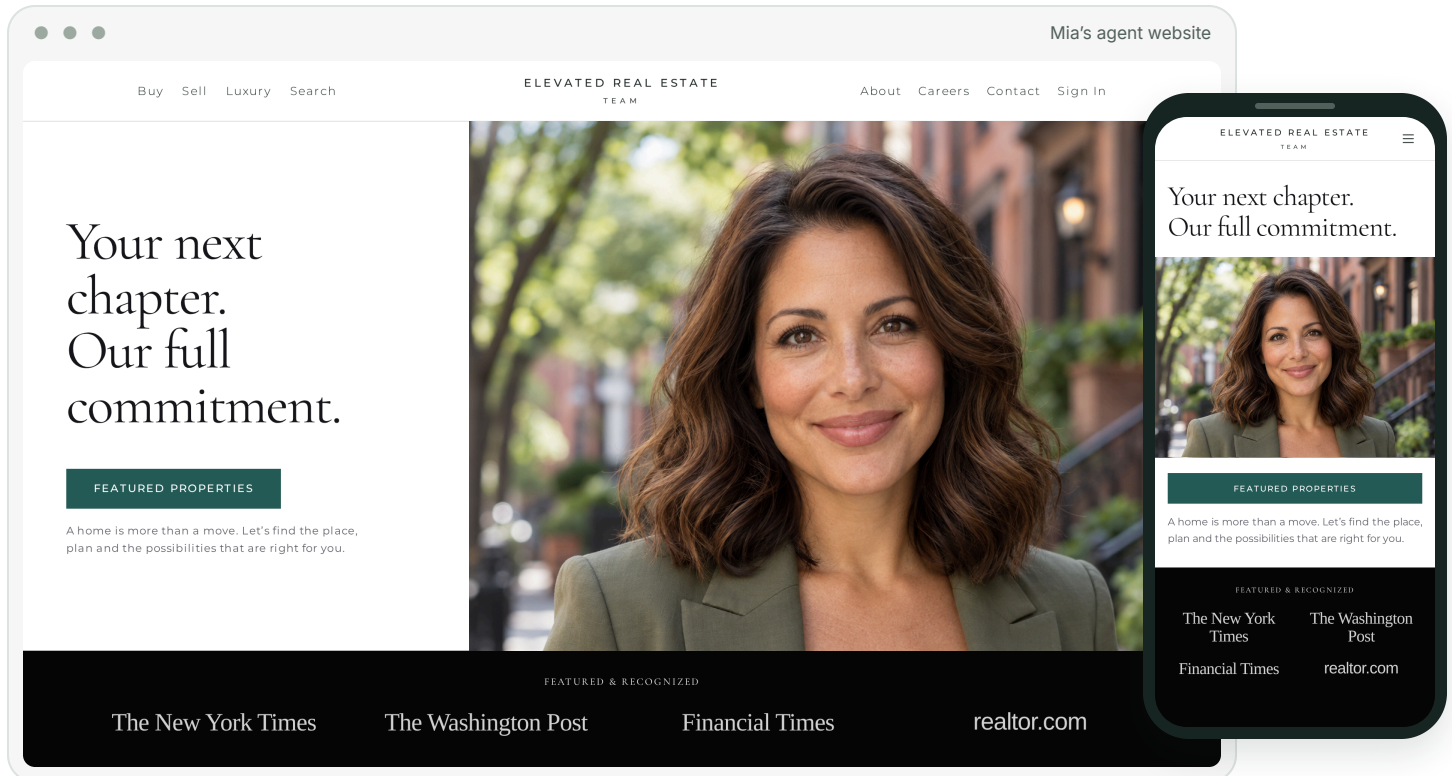

Brokerage website → Agent Login → Company Google or Microsoft → My Hub

A few useful bookmarks or your office intranet.
No integrations. No programming. Make it your own.

Agent websites. Already handled.

You already created the agent profile.
The agent's website takes care of itself.

ON YOUR BROKERAGE WEBSITE

Publish an agent page.

Unpublish or remove that agent page, and the agent site comes down.

AUTOMATICALLY

The agent's site is ready.

Look, Ma, no hands.

The photo, biography, and contact details come from your brokerage website. No separate website setup.

Ready in My Hub.

Agents open their website already signed in, using their familiar company Google or Microsoft account.

**200 fewer launches
to think about.**

More for your agents.
Built on what you already have.
